

The USAJOBS.gov website was revised in October 2011.

This very popular eBook *is being updated now* to reflect the changes in the new system, but the new book is *not done yet*.

You may [download the original eBook](#) now, if you choose.

We believe that this version of the book will still be useful.

Come back in late December for the updated book.

We tried to get access to the new system before it was made live to update this ebook, but were unable to. So we are playing catch-up.

Sorry for the delay!
