PROFESSIONAL EXPERIENCE

FREIDMAN WEALTH MANAGEMENT, Celina, OH 2017-Present

Client Data Operations Associate (Internship)

Carry out the identification and resolution of cost basis, wash sales, and share quantity discrepancies in Orion and Portfolio Center for Friedman client account reports and custodian bank reports. Update credit and debit data as needed, as well as updating portfolio performance reports by resolving cost basis discrepancies. Create and update reporting groups, manage client data, including changes and page code audits, and assist with data adjustments and maintenance during quarterly reports. Communicate with financial advisors.

Eliminated a backlog of 200+ unresolved issues to facilitate performance reporting.

Dramatically reduced a backlog of work by updating and transforming accounting methods for client accounts.

ROGERS BUSINESS SCHOOL, Dayton, OH 2013-2016

Graduate Assistant, School of Business (2016)

Analyzed and entered research study survey data, provided administrative and faculty support, and assisted faculty with research projects, literature searches, and other functions. Previously held the position of Residence Assistant (2015-2017).
